

Accutone®

**V10** Personal USB Communicator  
with Skype™ Controlling Capabilities.

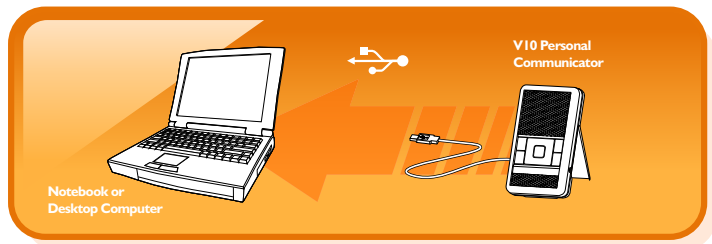

Convenience.

V10 - Personal USB Conference Machine with Top-end Echo Cancellation for Skype Application.

## convenient VoIP conferencing - V10 Communicator

Accutone® is proud to introduce a perfect USB conference solution for business and personal use. The V10 Personal Communicator allows user to host a small conference with anyone via Skype chat. Equipped with high-end acoustics and echo cancellation, the V10 provides crystal clear voice transmission and reception.

The V10 also comes with a set of Skype-controlling keys for user to quick launch the Skype application, flip through function pages, select contacts, make and end call all without even touching the mouse or the keyboard.

The software which comes with the V10 also allows user to record all skype calls, auto-answering services, and a number of other special features.\*

Aside for the Skype keys, the V10 also includes a set of standard HID keys for controlling sound volume, speaker mute and microphone mute.
